FINALISTS OF icare's 2016 TMF AWARDS FOR EXCELLENCE ANNOUNCED

icare CEO Vivek Bhatia today announced the 2016 finalists for icare's TMF (Treasury Managed Fund) Awards for Excellence which recognise the NSW public sector's standout performers within a variety of risk management-related disciplines.

"Our goal is to put the customer at the centre of everything we do by driving stronger engagement through collaboration with NSW government employers," Mr Bhatia said.

"The Award finalists are role models for both the public and private sector in implementing risk management strategies by pioneering new systems, processes and design.

"NSW government agencies are driving more risk-aware workplace cultures and introducing innovative ways of protecting the valuable people and assets of the NSW government and the community they serve.

"I'm incredibly proud to see the TMF Awards have become a prime opportunity for government agencies to share their experience and learnings in both preventive and post incident risk management," Mr Bhatia said.

icare's 2016 TMF Awards include the following categories:

- Individual Achievement in Return-to-Work
- Framework & Systems Innovation
- Innovation in Process
- Innovation in Design
- Innovation in Reporting & Risk Intelligence
- People's Choice Award

Mr Bhatia said the popular People's Choice Award voted by guests in attendance will be a highlight of the Awards.

"Last year's People's Choice Award winner, the NSW Department of Education, built an industry-first standard for managing anaphylaxis in state schools. This remains a landmark achievement that has inspired others across the public sector," Mr Bhatia said.

icare's TMF Awards will be announced on 8 November at the Museum of Contemporary Art. Guests at icare's 2016 TMF Awards will hear from international keynote speaker and Emergent CEO Holly Ransom, on how businesses can use creative strategies to deliver impactful business and culture change.
