Grants program application form FY23/24

This form contains the questions to be answered by applicants. Responses should be typed below each question using a standard font and font size of at least 11 point. Applicants must read the *Grants Program Application Guidelines FY23/24 before completing the application.*

Please note that word limits are strictly enforced. Any information provided beyond the word limit will not be considered.

Disclaimer

The submission of your application does not guarantee funding. The costs for producing the application are borne by the applicant. The Dust Diseases Board and icare can withdraw funding in described circumstances and dates can be changed. Applicants should read the Grants Program Application Guidelines FY23/24 to be fully informed of requirements.

Freedom of information

Information received in applications and in respect of applications is treated as confidential. However documents held by icare dust diseases care are subject to the *Government Information (Public Access) Act 2009*. This means that the information contained in application forms and other relevant information may be released in response to a request lodged under the Act.

Declaration by applicant

Please sign the following declaration. Sign off should be by the person who has delegated authority to sign on behalf of the Administering Institution/ Organisation such as CEO, General Manager or other authorised officer.

I/We certify that the information given in this application is true and correct. I/We agree the information disclosed in this application may be disclosed to other government agencies, reviewers and staff assisting with the administration or promotion of the Dust Diseases Board's grants programs.

5. Authorised officer The person who will sign the funding agreement on behalf of the Organisation, including: Name Position title Department Postal address Telephone **Email** 6. Chief investigator for the project Name Position title Department Postal address Email Telephone 7. Project coordinator Name Position title Department Postal address Telephone Email 8. Short description of the project Maximum 250 words in plain English.

9. Proposed start date	
Proposed start date must be between 1 January 2024	4 - 30 June 2024.
10. 5	
10. Duration	a paried will be written into the funding agreement
How long will the project take to complete? This time and cannot easily be changed (Maximum 3 years).	e period will be written into the runding agreement
11. Dust Diseases Board grant strategy gu	
Which of the following icare Dust Diseases Board graproject? (please tick)	ant strategy guiding principles apply to this
Benefits NSW workers with dust diseases	Develop a better understanding of dust diseases
and their families and contributes to a better quality of life for workers with dust diseases.	in NSW, including epidemiology to prevent the development of dust diseases among people at risk
Contributes to the effective administration of	Provides funding for novel and innovative
the dust diseases scheme in NSW. Supports early stage innovations and ideas	benchtop research, new treatments and pilot programs to improve health outcomes and quality
that can be turned into impact.	of life.
Fosters collaboration to develop and broaden expertise and leverage investment to	Advances and accelerates the translation of research into policy and practice, delivering meaningful outcomes to workers.
increase impact.	Builds capacity and capability; developing dust
	diseases researchers of tomorrow.
How do the proposed outcomes of the project relate	e to the identified research priorities?
(maximum 300 words)	

Please list dot points. Ensure the goals/objectives are specific and measurable.	
riedse list dot politis. Etisdre tile godis/objectives die specific did medsdrable.	
13. Justification	
Why should this research project be funded? (Maximum 300 words)	

14. Literature search

16. Subject recruitment

Outline relevant literature and/or related work done in the nominated area. This is to assess the significance of the project in the context of the international academic literature and/or current projects underway. Please **attach** your answer separately (maximum of 3 pages)

15. Project design/methodology

This is the most important section. It will give the assessors an understanding of the validity and feasibility of the project design, methodology and implementation.

Please attach your answer separately (maximum of 7 pages)

they will be recruited and evidence to support the feasibility of the recruitment targets.						

Preliminary work cribe any preliminary work you have done on this project.						
Describe any preliminary work you have done on this project.						

Please attach document if greater than space provided (see page 1 for instructions).

18. Lead time
How much lead time do you anticipate between signing the funding agreement and commencing Stage 1 of the project? (consider ethics approval, recruitment of staff, lab access, setting up equipment, obtaining supplies etc.)
10. Specified negotinal
19. Specified personnel Please provide the names, roles, responsibilities, qualifications, relevant experience and record of achievement

Will an advisory or reference group be established for this project? If yes, briefly describe what you consider this group's role to be and provide membership details, including job titles, organisations and names, if known at this stage. (max 250 words)
22. Sub-contracting
Will any of the research activities be sub-contracted out to external organisations or individuals? If so, please give full details including the scope of proposed financial commitments.
23. Partnerships
23. Partnerships Will the applicant partner with another organisation to undertake the project? If so, please provide full details.

24. Other funding
What other sources of funding are you seeking for this research project?
OF the blind owner out
25. In-kind support
List any in-kind support your organisation will be providing.
26. Will any employer groups or unions be involved in this project?
If yes, please provide details.
yee, predee provide detaile.

Does t	hical issues
	ne project entail any risks that may be ethically contentious?
11 SO, P	rovide details and proposed safeguards. (max 250 words)
	ssemination Plan
	ill the project results be published/disseminated? Please outline a plan to disseminate the results. Please attach document.

29. It	emised budget
	emised budget the expenditure that will be paid for with grant funding.

50. Total grant requested						
What is the total funding amount being requested in this application?						
51. Justification of budget not not not not not not not not not no						
Include salary range for each position (including on-costs) as specified in the relevant award or						
agreement or quotes to support bid amounts.						

32. Staging

All DDB grants administered by icare dust diseases care are staged. The payment for each stage is made when the previous stage is successfully completed. Please provide a staged project plan indicating for each stage:

- The time length of the stage (maximum 9 months)
- A description of the research/project activities to be undertaken in the stage
- The performance measures which will indicate satisfactory completion of the activities and stage
- The funding payment (instalment) required (maximum 30% of total grant) (max 4 pages)

To obtain the project staging template, please email: ddcgrants@icare.nsw.gov.au

33. Risk management plan

Please provide a risk management plan for your project. This plan should be written in conjunction with your project plan and attached to your application. In the plan please identify and record any potential risks to the project (e.g. not meeting recruitment target, data collection errors, unfeasible outcome measures, material shortage, key staff turnover, force majeure), including consideration of how COVID-19 may impact the project delivery. Please also outline mitigating strategies and provide a residual risk rating. The below table and instructions can be used as a guide.

- Score Likelihood and severity of risk [H=High (3) M=Medium (2) L=Low (1)].
- Calculate level of risk by multiplying likelihood by consequence.
- Is this level acceptable/unacceptable?
- Provide solutions/ strategies to minimise risks in second table and calculate the adjusted level of risk.

		Consequence				
		low medium high				
	low	1	2	3		
Likelihood	medium	2	4	6		
	high	3	6	9
