1. Putting plans in place for the future

Have you thought about how and where you want to be cared for if/when your health deteriorates? Have you talked to your family and doctor about this? (Consider wishes to be at home versus in hospital, consider if GP will do home visits, consider whether a referral to palliative care for symptom management has been made, or discussed, and consider whether an Advanced Care Plan is in place.)

2. Preparing your affairs - for now and for later

Have you thought about who you want to make decisions on your behalf if you are unable to do so? Do you have a Power Of Attorney and Enduring Guardianship in place?

Do you have an up to date Will? Have you set up your finances so your partner/family can access money if/when you are no longer able to do this?

Do you have any concerns about how your (partner or family) will manage when you are no longer with them? (consider practical issues, not just emotional adjustment)

3. Is there anything else you need to plan for?

What are the things you need to follow up or plan for? e.g. Pets (include these in the plan)
