PCANS-2

RECORD

FORM D

15 years

Instructions:

This questionnaire focuses on a range of activities children perform every day. For each activity please indicate:

(1) Whether your child requires:

- i. Physical assistance – someone to do the activity for them, hands-on assistance, help with set-up;
AND/OR
- ii. Supervision - verbal prompts or indirect supervision

(2) If no supports are needed then

0 = “none”

(3) If your child requires physical assistance and/or supervision for that activity, please indicate whether the level they require is:

1 = “some” or

2 = “a lot”

These supports may be provided by you the parent/caregiver, a family member, a teacher, an external service or other. Each rating is made according to how things are for your child now.

Note to clinician: For each applicable item, enter a score (0, 1, or 2) in both Physical assistance and Supervision sections.

Influence of other Factors on Item Score

In the column “Other influences” record the presence of factors pertinent to any item that are not resultant from the child’s ABI using the following abbreviations:

C=cultural beliefs or habits

N=non-ABI factors such as fractures, spinal cord injury occurring concurrently to the ABI

Pre=pre-existing health, medical, learning or developmental problems

O=other influences, e.g. medical conditions occurring since the ABI.

EXPLAIN ANY SUCH FACTORS FOR THIS CHILD

Please consult manual for detailed item definitions
