Support for Carers Factsheet

Dust Diseases Care

icare dust Diseases Care recognises that caring for a loved one with a dust disease can be very demanding and stressful. Finding support from other people who have had a similar experience can be invaluable.

Listed below are some community organisations that can offer you and your family support during this difficult time.

Carers NSW – wecare

wecare is service developed by icare in partnership with Carers NSW.

Carers NSW is a state-wide peak organisation that supports and advocates for family members or friends who care for people with a disability, chronic condition, terminal illness or are frail.

wecare includes the Mentoring Carers Program and the Children and Young People Program. These programs are available to carers and family members of Dust Diseases Care clients.

The Who Cares App

A new mobile app has been developed for young carers. It is now available to download for free from the App store or Google Play.

The Who Cares? app is designed to help young people who have a caring role in their family or for friends, from age 12 through to young adults.

The app holds lots of real young carer stories and voices that young people will be able to identify with.
