The respiratory health monitoring examination includes:

- A chest x-ray
- Spirometry (Breathing test)
- A physical examination with emphasis on the respiratory system.

Privacy

Under the *Work Health and Safety Regulation 2017* (NSW), the person conducting a business or undertaking (PCBU) named at the start of this questionnaire is required to ensure their workers undergo health monitoring. In addition, they are required to obtain a health monitoring report in respect of those workers. That PCBU has engaged the Workers' Compensation (Dust Diseases) Authority (icare Dust Diseases Care) to conduct this health monitoring, which icare Dust Diseases Care has arranged to be undertaken by a registered medical practitioner.

icare Dust Diseases Care needs to collect, store, use and disclose your personal and health information in order to conduct the health monitoring with the relevant registered medical practitioner and provide the results of the health monitoring in a health monitoring report to the PCBU named at the start of this questionnaire. That health monitoring report will contain the following personal and health information:

- your name and date of birth
- the date of the health monitoring
- any test results that indicate whether or not you have been exposed to a hazardous chemical
- any advice that test results indicate that you may have contracted a disease, injury or illness as a result of carrying out the work that triggered the requirement for health monitoring
- any recommendation that the person conducting the business or undertaking take remedial measures, including whether you can continue to carry out the type of work that triggered the requirement for health monitoring and
- whether you require medical counselling in relation to the work that triggered the requirement for health monitoring.

We respect your privacy and treat the management of your personal and health information very seriously. We are bound to manage your personal and health information in accordance with the Privacy and Personal Information Protection Act 1998 (NSW) and the Health Records and Information Privacy Act 2002 (NSW). We apply these legal obligations when collecting, storing, using and disclosing your personal and health information.

If you ask us, we will tell you what personal and health information about you we have, and give you access to it. We will allow you to update, correct or amend your personal or health information in certain circumstances, for instance if it is inaccurate.

Consent

I confirm that I have read and understood the information provided above and provide my consent for icare Dust Diseases Care to collect, access, use and/or disclose my personal and health information accordingly.
